

NEW! Resource Geology Special Issue, No. 21 (2000)

**"EXPLORATION AND DISCOVERY OF BASE- AND PRECIOUS-METAL DEPOSITS IN THE CIRCUM-PACIFIC REGION – LATE 1990s UPDATE"**

by Richard H. SILLITOE

This is the second publication to document a further 14 world-class discoveries that have taken place since the first publication "EXPLORATION AND DISCOVERY OF BASE- AND PRECIOUS-METAL DEPOSITS IN THE CIRCUM-PACIFIC REGION DURING THE LAST 25 YEARS", which was published as Resource Geology Special Issue No. 19 (1995). Together the two publications present the exploration and discovery histories of 68 world-class base- and precious-metal deposits discovered since 1970 together with an instructive synthesis of discovery methodology and the author's views on future exploration strategies. In English, 65 pages, 4 colour plates

Price: JP¥ 3,000 (plus postage charge)
